

DHANUSHREE NARMATHA V

CSE UnderGraduate

ABOUT ME

Determined and hard working student looking forward for various opportunities to update my knowledge and skill set as well. I'm enthusiastic, passionate and open to new challenges

PROJECTS

● Chatting Application - Java :

Designed and implemented a Java-powered chat application featuring real-time messaging capabilities, leveraging database connectivity for efficient data management and user interaction between sender and receiver

● Spotify-clone:

I have created a Spotify-Clone home page using HTML and CSS which has the playlist of some languages and artist names. I have also included the recently listened songs.
